

Community Improvements 2011

Hammers and saws and noise...oh my!

Whether you are a new acquaintance or old friend, we thank you for making us your home.

You will see a number of maintenance & improvement projects in the works, or soon to be scheduled. All will enhance the community and provide you with an even better place to call home. We appreciate your cooperation and patience during the rehab work. Please check the community channel and our website for updates and instructions.

May 2011-September 2011

New Roof- Roof installation will continue weekly into September. Cars will have to be moved during this work. Please stay posted via the community channel and website for your building's schedule and instructions.

July 2011-September 2011

Gutter & Downspouts - (Buildings 1-12). As each roof is finished, the gutters & downspouts will be replaced, too.

August 2011-February 2012

Windows - Energy efficient windows = save you money on heating & cooling...and they look great too! We will have a sample soon, at the leasing office. Also, look for a demo link on the HHE website.

Fall 2011- Spring 2012

Landscaping -Time to pull out the old and put in the new. This will be a project that will be scheduled over the next several months, since weather dictates when the plantings will have the best chance of success. We will remove and replant each bed at every building. We know you will enjoy all the new trees & plantings at the entrance and throughout the community.
